I will find you when I'm older but you will not recognize me
'Cause I'm the little girl you prayed for but I turned out to be a boy
Oh, do you still remember me hiding underneath the sun
My face covered in warm sand and nobody was ashamed **(E...)**

[pre-chorus] **E G#m C#m D#7**
And all the trigger-happy madmen, they're gathering 'round my coffin
They're holding out their cameras, looking through the blank glass
